

Parks Task Force Location Selection Subcommittee Meeting #1

What: Parks Task Force Location Selection Subcommittee Meeting

When: September 13, 2007 starting at 9:00 AM

Where: Charles E. Price Memorial Park, Pavilion No. 3
950 Levels Rd, Middletown, DE 19709

Meeting Purpose and Description

This will be an informal meeting in which we will review the map output from the initial location allocation modelling/mapping of parks and recreation facilities south of the canal. This analysis will be used as our initial guidance of the most preferable area(s) to develop a "regional" NCC County Park(s) south of the C&D Canal. Based on this initial analysis, we will also spend some time discussion potential areas or sites that should be the areas of geographic focus. Based on our review and discussions, we will brief the full Task Force at our next meeting with our suggested path forward for site selection.

There is plenty of space in Pavilion no. 3, so anyone interested is welcome to attend (including members of the public). Also, we will meet rain or shine.

Optional Post Meeting Activities

Following the meeting, I am happy to lead a short site visit of some of the nearby locations (carpooling if needed). Geographically from our meeting location; Wiggins Mill property is 2.6 miles south, Townsend Municipal Park is 3.6 Miles South, Silver Lake Park is 2.9 miles east, & Marl Pit Road County Owned Properties are 6.3 miles northeast.

I also told Arabella that I would be happy to demo the aerial drone that I have been using to collect images for the park inventory work, perhaps providing a real-time birds eye view of some properties adjacent to Price Park that may become available for parks and recreation facility development partnerships in the near future (should the analysis indicate this to be a reasonable option to explore).

I hope you enjoy your holiday weekend, and that part of your enjoyment includes getting out into a Park in your community.

Thank you,

Dave Carter
