

Let's Talk! Workshop Series

As part of New Castle County's Comprehensive Plan effort, there will be a series of four virtual workshops held to inform and discuss with our residents a diverse array of topics affecting the future of the county.

Our Homes & Neighborhoods

October 7, 2020

6:00pm – 7:30pm

Our Homes & Neighborhoods

will focus on the following:

- ☐ **Housing affordability**
What makes housing too expensive? Is there a disconnect between supply & demand?
- ☐ **Social determinants of health**
How does our living or working environment affect our health, well-being, and future?
- ☐ **Environmental justice**
How do we address the disproportionate impacts communities of color and/or less affluent neighborhoods have historically experienced from air pollution and water contamination?

Please register in advance to help us prepare for the session and to ensure a secure virtual space for the event.

Future Virtual Workshops Include:

- ☐ October 21: Our Places & Spaces
- ☐ November 9: Our Environment & Nature
