Beginning of 2022, the Delaware State Police completed an evaluation of “Hot Spot” areas for the purpose of enforcement. The desired strategy for Hot Spot revolves around focused emphasis determined by metrics to impact criminal activity and collisions through determined peak hours. Based on these measured metrics it was determined a reallocation of resources to target areas. The area of Townsend was removed as a hot spot area and no longer requires mandatory reported time within this jurisdiction. Townsend does fall under a Traffic Hot Spot that is patrolled from SR 1/US13 to N. Smyrna from the hours of 0600 – 1000.
