

BUILD & CERTIFY

Wildlife

HABITAT

IN COLLABORATION WITH
National Wildlife Federation

How To

BUILD A GARDEN

- Three (3) Sources of Food, such as fennel, milkweed, strawberry, & pollinators
- Replenishable Water Source
- Two (2) Sources of Cover from Natural Elements
- A Place to Raise Young Offspring

CERTIFY A GARDEN

The National Wildlife Federation is the largest and most trusted conservation agency in the United States of America. Certify a backyard wildlife garden habitat for \$20, and receive free subscription to the National Wildlife Magazine and discounts for garden flag, classic yard sign, and lawn or wall plaques. Register online to be a part of the organization's sustainability efforts: <https://www.nwf.org/certifiedwildlifehabitat>.

SUSTAINABILITY

Do 2 or more of the following:

Soil and Water Conservation

Control Invasive Species

Attract Wildlife through Organic Practices
