What is CodeRED and why is it important to me?

CodeRED - an emergency notification service that allows emergency officials to notify residents and businesses by telephone, cell phone, text message, email and social media regarding time-sensitive general and emergency notifications. Only authorized officials have access to the **CodeRED** system.

When will CodeRED be used?

Any message regarding the safety, property or welfare of the community will be disseminated using the **CodeRED** system. These may include **AMBER** alerts, notifications of hazardous traffic or road conditions, boil water advisories or evacuation notices.

This is a conduit for the Town of Townsend to reach out and communicate important information and emergency messages to residents. Please take advantage of this service.

Another way to sign-up for Code is by visiting:
